INTRODUCTION

OUR BUSINESS

The business world is moving more rapidly than ever. The plastic bag industry is one of the fastest moving segments among many industries today. Currently consumers are placing more emphasis on product images. Distributors must therefore move from price concerns to providing customer satisfaction and convenience for greater value creation. Being light in weight and easily transformable into various shapes and sizes, plastic bags are the answer for the needs of convenient packaging. Plastic packaging can also be applied to a variety of customer needs, both household and business use. Plastic Packaging is essentially a part of our daily life.

OUR PRODUCTS

Currently, KING PAC INDUSTRIAL CO., LTD is one of the leading plastic manufacturers in Asia with ambitious aims at becoming one of the world's leading plastic bag manufacturers and exporters. With more than 20 years of business experience specializing in manufacturing of all types of plastic bags including vest carriers, shopping bags, fashion bags, garbage bags, zipper bags and many more. Our plastic bags are made from high quality Polyethylene (PE) at competitive prices with reliable delivery to customers worldwide.

With professional expertise of our dedicated staff accompanied by advanced production technologies imported from the United States, Europe, and Japan, all of which has supported us in producing greater quality products. Our production capabilities have made KING PACK INDUSTRIAL CO., LTD the first and only manufacturer in Thailand with printing capabilities of up to 8 colours.

MISSION & VISION

Vision

PROVIDE EXCELLENCE IN PRODUCTS AND SERVICES TO OUR CUSTOMERS

Mission

BE THE CUSOTMER'S STATEGIC BUSINESS PARTENR AND PROVIDE CUSTOMERS WITH THE BEST QUALITY

Motto

HIGH QUALITY PRODUCTS ARE THE CUSTOMER'S HIGHEST SATISFACTION

COMPANY HISTORY

- 1976: IQ Plastic Co., Ltd. was founded and later changed to Siam Zip 1992 Co., Ltd. in 1992 to manufacture and sell plastic bags to the local market.
- 1984: Joint venture investments with partners from Germany, Malaysia and the Netherlands established Zip Pac., Ltd. to export plastic bags to Europe.
- 1966: Mr. Henry Chang took over 100% of shares from Foreign Partners.
- 2000: King Pac Industrial Co., Ltd. was established to manufacture and export various types of plastic bags to the world market with a registered capital of 200 million Thai Baht.
- 2005: King Pac's Expansion tripled its capital investment to 600 million Thai Baht.
- 2006: Establishment of King Bag production facilities to produce large size packaging such as garbage bags and using own internal recycling facilities.
- 2007: Establishment of a factory in Malaysia to support growing demands in Europe.
- 2008: Began Project for Packaging Industrial Park on over 265 acres of land to support the growing global market demand. The project utilizes the location advantage of Thailand which includes support and incentives from the government for allocated industrial zone.
- 2010: Establishment of overseas facility to overcome logistics for customers in the EU and USA.
- 2011: Increasing the production capacity of retail products such as Zipper bags (80%), retail trash bags (60%). Collaborate with the government to develop products for other industries and institutes such as health services and municipalities.

GROUPS OF BUSINESS

"TO BECOME THE LARGEST PLASTIC PACKAGING MANUFACTURER IN THE WORLD"

1. KINGPAC INDUSTRIAL CO.,LTD
2. KING BAG CO.,LTD
3. REAL ESTATE
4. INDUSTRIAL ESTATE
5. DOMESTIC BUSINESS
6. SUPERPAC

PRODUCTION SYSTEM

PRODUCTION CAPACITY : 100,000 METRIC TONS PER YEAR

We produce Polyethylene (PE) bags by blow film and cutting process in accordance to the customer's requirements.

We use high quality standard machines with advance production technology from around the world that are operated and controlled by staff who have over 20 years of experience.

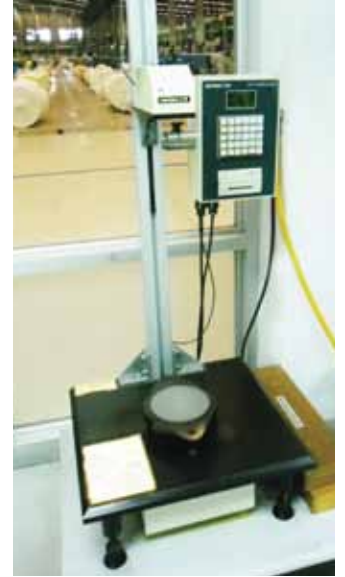

1. Mixing : Raw-materials are mixed to the correct formula.
2. Extrusion : The mixed formula is then melted and extruded into tubes of film ready for shaping and sealing.
3. Shaping and Sealing : The extruded tubes of film are then cut into shape and sealed to create bags.
4. Packing : The bags are then counted and packed into customer's preferred packing.
5. FG Warehousing : The packed finish goods are stored securely in the warehouse ready for shipment.
6. Container loading : Finished product are loaded into the container and transported to shipping yard.

QC SYSTEMS

We have two sections to control our production process quality. The first section is Quality Control, where our QC staff inspects the product in each production process.

The second section is Quality Assurance, where our staff tests the product properties and performance with methods and instruments in compliance with to the international standards.

QUALITY ASSURANCE

TENSILE TESTER
HAZE GUARD PLUS

2011 : Wal-Mart Ethical Standard
(ES) Green Assessment
Verification

2011 : Factory Security - Wal-Mart
Supply chain security program
that uses the U.S Customs-Trade
Partnership Against Terrorism
(C-TPAT) 95% Risk Rating Low

2002 : Official Licence Partners for
the responsible use and disposal
of biodegradable plastic in the
environment

2002 : Environmental Ambassador
for Product incorporating EPI's
TDPA - Totally Degradable Plastic
Additives

2004 : BRC Global Standard
Consumer Products (BRC/CP)
Certificate by SGS (UK)

2006 : Orthodox Union authorizes
to place the OU symbol on
Customer's Private Label Products
that produced the Resealable
Bags by our company

2008 : AUTHORIZED
MANUFACTURER OF d w
OXO-BIODEGRADABLE
TECHNOLOGY

2006 : Implement GMP Program
2007 : Implement Total Productive
Maintenance (TPM)

KING PAC EXPANSION

With over 30 years of experience in the industry, King Pac Industrial has accumulated a wealth of knowledge, expertise and capital in order to support further global expansion. Through mutually beneficial alliances, King Pac Industrial is looking forward to expand with its partners in the following areas:

SALES & MARKETING

To support customers globally and provide them with the best service and closest attention, King Pac Industrial has been establishing Sales Agents and Representatives in several countries globally. As they have proven to be highly successful, King Pac is looking to the further its reach globally with establishments of more Sales Agents.

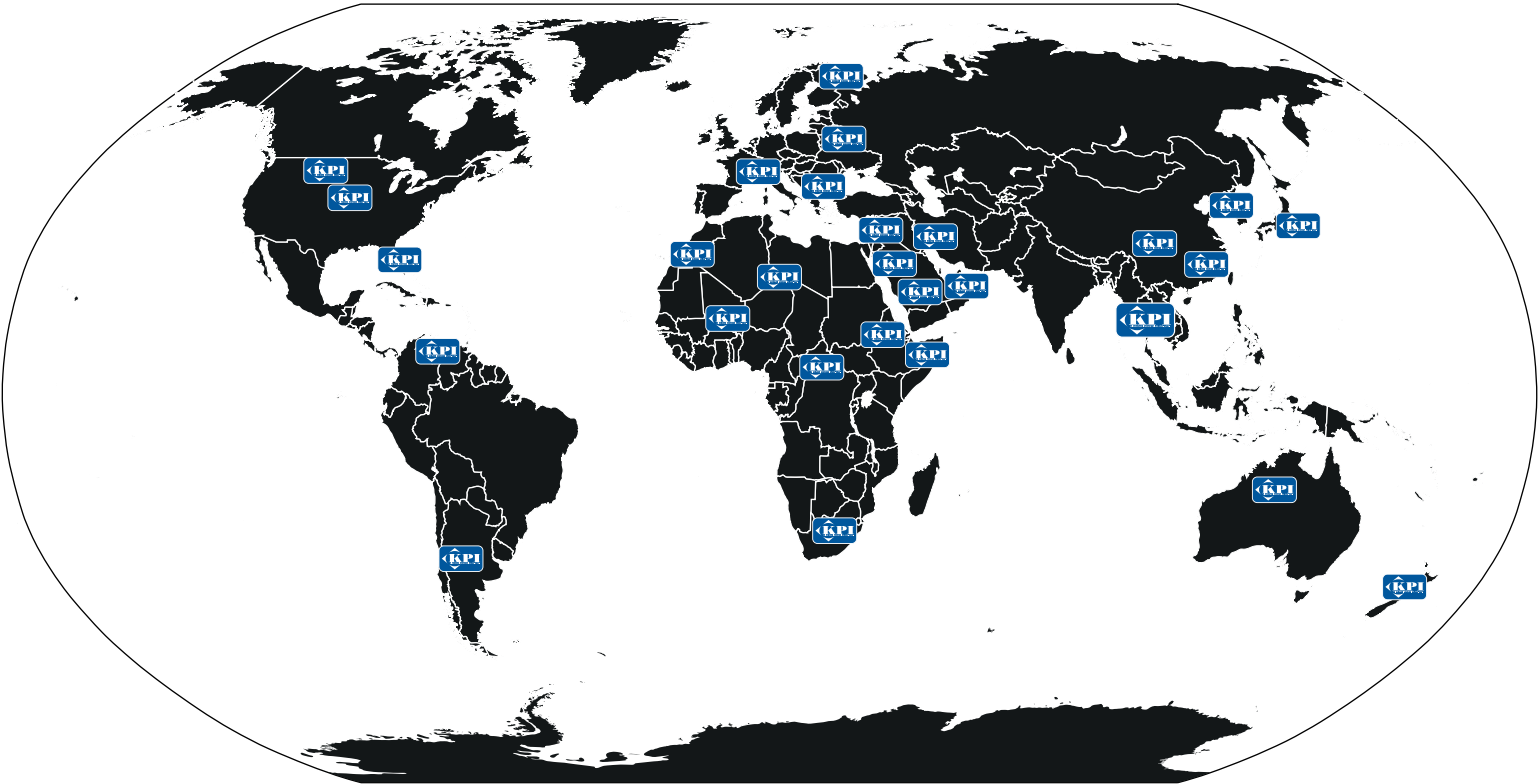

LOCAL PRODUCTION

As Thailand is becoming a more attractive production zone, many producers from the U.S. and from the EU are interested in moving production to Thailand. King Pac Industrial has the, connections, knowledge, experience and expertise to support such production expansion in Thailand and is willing to invest with partners to establish such production. King Pac Industrial also has over 270 acres of available industrial zone land to support expansion.

INTERNATIONAL PRODUCTION

The recent global economy has been harsh and many producers have suffered greatly by it. Producers in the U.S., EU and other high operating cost countries are finding it difficult to survive. King Pac Industrial can provide these companies with the production support and guidance to be able to compete competitively at a global level.
